

## **GRAM GAMES ANNOUNCES MERGE DRAGONS!, THE FIRST MAJOR RELEASE FROM NEW LONDON STUDIO**

**London, 29<sup>th</sup> June 2017** – Today Gram Games has announced Merge Dragons!, their first IAP title, and first major release from new London Studio, coming to iOS today and Android later this year. San Francisco based veteran game developer and Creative Director for Merge Dragons! Ray Mazza, joined the Gram Games family earlier this year to bring the game to market.

Merge Dragons! is a fascinating puzzle adventure game, where players are tasked with healing a magical land, harnessing the power of dragons, solving fun puzzles and building their camp to grow their dragons. All items in the game can be matched and merged to produce unique artifacts and create a variety of effects. There are dragon eggs, trees, treasures, stars, magical flowers and dragons themselves, all that interact with each other and help players overcome mysterious puzzles.

Players will discover over 500 items and artifacts around the realm. They will interact with and freely move them around, matching and merging, to grow their powers. Numerous collectable dragons will aid players on their journey. Dragons can be matched and merged through eight growth stages and evolved into new varieties.

There are over 600 quests for gamers to play through, making this one of the most epic puzzle games available for mobile. Players can also repeat more than 100 levels, to generate power-ups and build their dragon camp.

Mehmet Ecevit, Gram's Co-Founder and CEO, comments: "We're delighted to bring Merge Dragons! to the world, the first title from our new London studio. This is our most exciting release to date, and our first IAP product. We're looking forward to seeing where this game takes us. We believe that players from around the world will love and enjoy the story of Merge Dragons! as much as we enjoyed making it."

Ray Mazza, Creative Director, on Merge Dragons!: "Merge Dragons! is a game of crafting and discovery, as much as it is a puzzle game. We wanted players to experience the joy of discovery as they explore and interact with our matching and merging world. This gameplay also allows players to build their own space, but never run out of space, thanks to the power of merging."

Merge Dragons! is brought to you by Gram Games, the studio behind the top hit titles 1010!, Merged!, Six! and Bounzy!.

Download and discover the magical world of Merge Dragons! from iOS today and soon on Android.
